The outline of each chestnut must be drawn in the appropriate square for all horses without markings and with less than three whorls

Application for a Hackney Horse Society Passport

Application for a passport for a Hackney Horse or Pony, or a Part-bred Hackney Horse or Pony should be made using the current registration forms. All applications for the registration of pure-bred and part-bred Hackney foals must be received 6 months from date of birth or before 31st December of the year of birth, whichever is longer. All registrations of pure bred Hackneys are subject to DNA parentage testing to prove parentage at the expense of the applicant, payment for DNA kit must be received prior to any kits being forwarded. Appropriate registration fee to be sent when returning the passport application. If the application for a passport is received after 31 December in the year of birth, part II of Section IX of the passport will be signed and stamped by the Society, irreversibly removing the animal from the human food chain, as required by horse passport legislation.

The identification diagram on the application form must be completed by a registered veterinary surgeon. The vet will also implant a microchip into the animal concerned, having first checked for evidence of any previously implanted micro-chip. The position of the micro-chip should be noted on the Identification diagram. The vet should also collect, verify and sign the hair samples for DNA records from the foal being identified. The vet must draw the outline of each chestnut in the appropriate square for all horses without markings and with less than three whorls.

The form should then be sent to the Society, together with the required fee for registration, the DNA hair sample collected by the vet to be forwarded to the appropriate DNA testing authority. Failure to provide any of these requirements correctly may lead to delays in issuing the passport. A minimum of 25 working days from the date the applicant forwarded the DNA sample to the relevant testing authority is required before a passport is able to be issued.

Registration

Hackney foals are eligible for registration only if both the sire and dam are registered in the Hackney Horse Society stud book and it complies with all current conditions for registration, as set out in the rules and regulations of the Hackney Horse Society. A copy of the rules of registration are available from the Society, and also on the website www.hackney-horse.org.uk

Ponies will be registered in the appropriate section of the studbook, according to the rules of registration.

Part-bred Hackneys are eligible for registration only if the Sire of Dam is a Pure bred Hackney. There is no up-grading from the part-bred register to the pure stud book.

Any registration queries should be made to the Office, Monday-Friday, 10-4.00 pm

Registration forms and fees should be sent to:

Hackney Horse Society

Non-discrimination between members

In order to comply with zootechnical legislation, the Hackney Horse Society declares that it does not discriminate between members.

Data Protection Legislation

Under the terms of the Data Protection Legislation the Society has a responsibility to inform data subjects (equine owners) about the intention to collect data (which includes personal information relating to an equine owner's name and address) and how that data will be used. Information supplied in connection with your application and other horse passport based information about horse and owner is held in order for the Society to carry out its mandatory requirements as a passport issuing organisation. From time to time the Society is required to make such information available to Defra and recognised enforcement authorities in order that they may carry out their responsibilities regarding the implementation of the horse passport legislation. The information will be uploaded to Central Equine Database (CED) The Society will also publish the data in the Hackney Horse Society Stud book.
